

**James Paluck, P.E.**  
**Senior Civil Engineer**

**Professional License**

Civil Engineer, CA Registration No. C46069

**Education**

BS, Civil Engineering, UC Davis

MS, Civil Engineering, CSU Sacramento

**Professional Capabilities**

James Paluck has over 37 years of providing both private and public sector experience, working for various counties and cities throughout Northern California. His main duties in the 30+ years in the public sector involved Development Review Engineering for new residential, commercial, and industrial projects. He has managed numerous land development projects through all phases: entitlements, final map, improvements plans, and construction. Has also has experience in floodplain management and was a Certified Floodplain Manager, as well as stormwater quality, and currently holds his QSP/QSD Certificate. James prides himself on his customer service skills and working collaboratively in a team environment.

James has also worked in the private sector for 6+ years, for local engineering firms based out of Fairfield. He has designed numerous residential subdivision and commercial projects, and has shepherded a variety of projects through the approval process through many different cities and counties.

James's latest work experience has been as a Consultant providing Engineering Services for various cities in Northern California, mainly within Solano County. He has managed numerous land development projects through all phases: entitlements, final map, improvements plans, and construction.
